

SCENO-SPOT

SCENO-SPOT

Is playing with light or dressing your projects

This is the best product for light diffusing, and also the ideal product for dressing walls and structures. SCENO SPOT-in light has a textile structure that is virtually invisible, the quality of its perfectly diffusing coating, makes it the ideal support for your lighting effects, but also for projected images, which will be visible on both sides.

SCENO-SPOT from a minimum quantity of 500 ml can be dyed the color of your choice, and thus become the perfect companion to decorate your projects.

SCENO-SPOT can also be printed directly, using the various digital technologies, thus it is the perfect medium for back lit images.
